CECIL LAMBERT TRANSFERRED TO NEW WESTMINSTER

Another member of Strathmore's Pioneer Families is shortly to sever his local connection in the life of our town, in the person of Mr. Cecil Lambert, who is being transferred to the Canadian Pacific Air Lines at New Westminster B. C. to take up his new duties December 15. Mr. Lambert is the elder son of Mr. and Mrs. E. W. R. Lambert who played so worthy a part in the early development of Strathmore.

Mr. Lambert has been a member of St. Michael's Choir, also a member of the vestry for several terms and has taken an active part in the junior sports of the Town.

Mrs. Lambert, formerly Miss Madeline Hall taught in Strathmore before her marriage, and since has taken an active part in the W. A. of St. Michael's Church. They have two children Billy and Pat.

While deeply regretting the removal of Mr. and Mrs. Lambert to further fields, we nevertheless congratulate them on this enviable appointment and wish them good health and all happiness in their new home.

ELMER ROPER ELECTED HEAD OF ALBERTA C. C. F.

CALGARY, Nov. 30 — Elmer Roper M. L. A. Edmonton publisher, was elected Alberta, C. C. F. leader at the first provincial convention of the Co-operative Commonwealth Federation, (Alberta Farmer-Labor party), held in the Labor Temple, here Saturday. He succeeds Chester Ronning, who recently resigned the party leadership to enlist in the R. C. A. F.

Home And School Association Meeting

The Executive of the Home and School Association entertained the visitors from Carseland at the home of Rev. and Mrs. Hunt following the meeting Monday evening, when a very pleasant social hour was enjoyed.

A good number and a very interesting program was the opinion expressed by all who gathered at the High School Monday evening.

Eight of the Carseland Home and School Association came over who with the increased number of local parents added interest and zest to the discussion. Rev. S. R. Hunt presided.

Business arising from the Secretary's minutes included a motion naming the fourth Monday of each month as the regular meeting date, barring December.

Also that the fee be changed from 25c per family per year to 25c per person per year. Pictures thrown on the screen by Mr. J. Crellin included a Travelogue "Canada from Sea to Sea in ten minutes" and some of the Beauty

Spots in the Rockies.

This was followed by an interesting and provocative talk on Report Cards by Principal Crowther.

Whether to be or not to be the speaker endorsed the idealistic method of dispensing with Reports believing the method of discussing the pupils efforts with the individual parents is a more satisfactory plan.

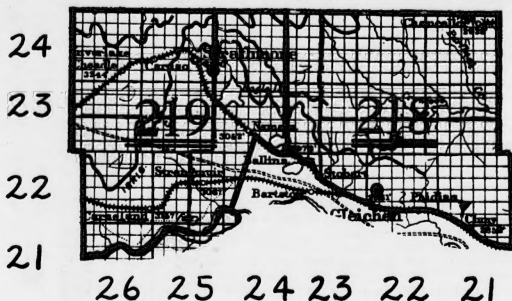

A very interesting discussion followed in which a large number of those present expressed their opinion pro or con.

The consensus of opinion however very strongly favored some plan of report to the parent. Exhibits of the reports sent out by the Alberta Department of Education as well as those in use in the Strathmore Schools were discussed.

Exhibits of work by pupils from Grades 1 to 9 were placed that parents present might compare the work being done by the various students.

The meeting closed with the National Anthem.

MUNICIPAL DISTRICTS 218 & 219 AS MERGED

The above is the new set-up of the enlarged Municipal District comprising the present municipalities of Bow Valley M. D. 219 and Blackfoot M. D. 218. About 45 councillors and officials attended the meeting Tuesday in the Memorial Hall called for the purpose of discussing the enlarged area.

Representatives were present from Keoma, Grasswold, Shepherd Beddington in addition to the two most directly concerned of Bow Valley and Blackfoot. A number of Strathmore representatives also attended. Mr. A. Souter, Deputy Minister of Municipal Affairs presided. Mr. T. A. Potts Provincial Supervisor of Municipal Districts was present and both addressed the meeting at length and answered various questions.

Bow Valley and Blackfoot, at a previous executive meeting had declared their willingness to abide by the finding of the Government and agree to amalgamation. A new slant on the question was introduced when representatives from Keoma and Grasswold objected to the set up as arranged, and felt that the decision should be to combine North and South, not East and West, or that M. D. 218 and 248 should amalgamate and 219 and 249. Asked by the Chair the members of Bow Valley and Blackfoot declared themselves as quite satisfied with the plan as drawn up. A motion by Mr.

Umbrite of Gleichen seconded by G. B. Field of Carseland that these two Municipalities combine, was unanimously carried.

At the executive meeting of the two above M. D.'s it was unanimously agreed that the Municipal Office be located in Strathmore.

Urgent appeals on the part of Reeve Larsen of Grasswold that the division be changed to North and South or that Grasswold be included in the above set-up, were frequently made, this idea being supported by Mr. Wagler, of Standard.

Mr. J. M. Wheatley of Chancellor strongly opposed the idea on the ground that councillors would be better to go slowly as the too large area might prove cumbersome. He objected to the joining of the four in the meantime.

The question of local improvements also entered the picture to which Mr. Potts replied, these would not be included unless they could stand on their own feet.

Members of 248 and 249 felt the enlarged area of four municipalities could work to advantage. Mr. Newall made a motion to this effect which was seconded by Mr. Wagler.

Later Leonard Hill of Keoma moved that this meeting go on record

as favoring the union from North to South, or as an alternative that the four join together.

Mr. Larsen advocated the larger unit in case an irrigation project should become a problem in the future.

Chairman Souter stated he would bring all the various suggestions made to the attention of the Government. Mr. Souter also stressed improved Health legislation as one of the coming progressive measures that will be introduced. This is an excellent project and merits the support of every alert citizen.

Replying to a question as to whether present M. D. names would be retained Mr. Potts answered in the negative. Accordingly, as at January 31 next the present Reeves Secretaries, Pound Keeper and Councillors vacate office. Nomination will take place in February, with elections to be held in March.

The meeting closed with the singing of the National Anthem.

ALLIES CONTINUE ADVANCE IN NORTH AFRICA

Allied armies have hurled back the heaviest German counter-attack of the Tunisian battle. Rommel is throwing all his forces in to win as the Allies met the biggest German counter-attack they have yet encountered but they were repulsed.

Heavy losses were suffered on both sides.

Aid To Russia Fund

Mr. Tench received a very kindly hearing from the Town Council Tuesday evening when he approached them with reference to canvassing for the Aid to Russia Fund.

Mayor Gannon was named canvasser for the C. P. R.

Leonard Hill for the North of town.

Mr. Tench for business section.

S. Goldwell for out of town people.

Dr. John Giffen for southern part of town.

The Goldwell Agencies Office will be the receiving centre for all collections with Mr. S. Goldwell as Secretary.

Amount collected to date:

Opening of the Hawaiian legislature has music and hula dancing as a feature.

THE 'OUT-SIDE'

● Creamery Short Course Announced

A four weeks' Creamery Short Course will be offered jointly by the Department of Agriculture and the University of Alberta, Edmonton, February 1 and is to be held in the Department of Dairying at the University, Edmonton.

Details of the course and qualifications of applicants may be obtained from the Department of Dairying, University of Alberta, Edmonton, or the Dairy Branch, Department of Agriculture, Edmonton.

● Eat Right to Feel Right

Canada's national nutrition program which will be launched with a nationwide promotion campaign in January, was given a good send-off in Toronto this week when Dr. L. B. Pett, Director of Nutrition Services addressed the convention luncheon of the international advertising convention sponsored by the Association of Canadian Advertisers.

● Sugar Tunes The Bagpipes—

When it comes to the pipes and the haggis no Scot is to be denied, and although the uninitiated might presume an application to the rationing offices of the Wartime Prices and Trade Board for Demarara sugar had something to do with haggis, it turns out that it is the pipes that need sweetening.

It is told that a regimental sergeant major wished to obtain 10 cents worth of Demarara sugar for the pipes in the bagpipe band, and so applied to the Nanaimo office of the Board. The quantity was to do the band a month. More dulcet music from the pipes comes with a few grains of sugar in the bags say those who know.

When it was suggested that the band try corn syrup they said they had but the music was "corny."

● In Alberta, and all other provinces except Ontario and Quebec a new bicycle for a man will be priced at \$45 and for a woman at \$46. In Ontario and Quebec Prices are set at \$42.50 and \$43.50, for a man's and a woman's bicycle respectively.

● Platinum Jewel Craft Curtailed—

Platinum settings for jewelled rings, pendants, ear rings, brooches or watch cases have called for individual craftsmanship and skilled labour not available in wartime, so that the administrator of Jewellery, Wartime Prices and Trade Board has issued an order prohibiting the use of platinum in the manufacture of jewellery. Alloys of platinum, palladium and rhodium also come under the restriction. Similar action was recently taken in the United States. It is announced.

● Notes That Make News—

It is generally agreed that if Major James Roosevelt were not a son of the president, he would have been decorated for his part in the Marine Corps' raid on Makin Island. The president has four sons on active service and not one has sought an easy job behind the fighting fronts.

Caves of perpetual ice are found under lava flows in western New Guinea.

THE BOMBER PRESS IN GREAT BRITAIN

ENGINEERS SHOW ALACRITY
IN BRIDGE BUILDING—
By C. V. CHARTERS

If I had a job of bridge building to be done any time, anywhere, efficiently and with record speed, I would call on a group of the Royal Canadian Engineers.

It was my good fortune to see these fellows in action and doing a real construction job overseas. They work like demons. A finer body of keen, physically fit Canadians would be hard to find anywhere.

Engineers Role—

Besides preparing for their operational role when the Canadians go into action, the Royal Canadian Engineers have done extensive experimental construction and development work since their arrival overseas.

Aerodromes, camps, roads and buildings have been constructed and will remain for the use of the Imperial Army long after the war has been won and the Canadians returned home. Special development work on mineral resources in the United Kingdom has been undertaken by the Engineers and in special cases the Tunnelling Company—recruited from

the hard-rock miners of Northern Ontario and Manitoba—have pierced granite mountains to bring additional waterpower to munitions plants.

The R. C. E. have also been working on new, secret, methods of warfare. Some of their projects include—new bridging equipment for river-crossings, camps constructed in record time; development of Cornish tin mines; construction of strategic roads and by-passes; aerodrome construction; special water-diversion tunnelling; Base Ordnance Workshop constructed, largest project ever undertaken by Army Engineers; training in bomb disposal work; tunnelling and construction work in Gibraltar.

Bridge Building Competition—

The afternoon that the press party were privileged to visit them, a competition in bridge building was put on between a Field Company from British Columbia, commanded by Major T. H. Jermyn, Vancouver, representing Western Canada, and a Field Company of Quebec commanded by Major A. S. Rutherford, Montreal, representing Eastern Canada.

The equipment demonstrated in the bridging operations was the F. B. E. (Folding Boat Equipment) S. B. G.

(Small box girder) pontoon equipment and another new type of bridge still on the secret list.

Each company fielded three teams. The equipment and sites were selected by draw, and the race was on. The Job To Be Done—

The F. B. E. bridge to be constructed was 120 ft. Stores had to be laid out with the boats on shore. The bridge was judged completed when one vehicle had crossed it. The time was taken at this point. The judges now inspected the bridge. Then the group which had shown such skill and alacrity in creating this sizeable structure immediately proceeded to tear it down. The dismantling was done in the same orderly and efficient manner as the erection. When this work was completed and the stores all neatly and properly laid out the officer in charge reported to the judges. The total obtainable for this particular item on the programme was 115 points.

A Marvelous Feat—

In the other event, two gaps of 61' and 48' were successively bridged with S. B. G. Here also the two teams worked with clock-like precision and accuracy.

It was a great show—a marvellous feat of engineering brains and physical strength. The Eastern group from Montreal triumphed by the narrow margin of ten points, so the judges declared, although to us laymen it looked like a draw, so evenly did the two crews finish.

Lt. Col. D. H. Storms, M.C., of Toronto, was in charge of the Bridge building competition. Formerly with the Storms Construction Company, he seems right at home at this type of work. His son is Lt. Peter, also with the Engineers overseas, and his daughter, Mrs. Scandrett, is in England as a M. T. C. driver.

During this very interesting afternoon with the Engineers, we were treated to other demonstrations of technical skill and physical endurance. It was made abundantly clear to us that here is a group applying brain and brawn to the task in hand, determined not to be outdone by anything the enemy may devise, but on the contrary, to outdistance him whenever and wherever possible. The spirit and sparkle of these men was grand to behold. They fully realize the importance of their task.

Meet Ex-Minister—

It was during the afternoon with the Engineers that our Ontario press men were privileged to meet and renew acquaintance with Lt. Colin Campbell, R. C. E., former Ontario Minister of Public Works. He had just come back from service in Gibraltar. While there, he was engaged in tunnelling and providing a hospital in the underground rock.

OTTAWA SPOTLIGHT

By M. McDUGALL

(Weekly Review of National Affairs)

Ottawa.....There is clearly discernible in the capital these days a restrained but mounting optimism. It permeates everything, this belief that though the road is still dark, and though there will undoubtedly be pitfalls and ambushes along the path that may daunt the spirit in the end victory cannot be denied to the great forces fighting for freedom. A degree of success such as achieved in North Africa and near Stalingrad certainly helps to bolster morale. The best possible chance against the possibility that the United Nations could ever surrender has been the knowledge that defeat means slavery. It has also helped the fighting spirit to have aims of the Allied Nations formulated in such announcements as the Atlantic Charter, but any elixir to help morale is much improved by a few drops of genuine military success. To these drops pretty substantial ones have been added. At the same time no drops of complacency have been put into the mixture. There is no place for them.

Manpower Disputes

It is very unlikely that the government is going to be stumped for long by the row over the manpower administration. The resignation of Elliot Little, director of national selective service, good man though he was, is "water under the dam." No branch of the war effort, particularly such an important one as the distribution of manpower, can remain idle and the country has been assured that the machinery will continue to turn. Through a new order-in-council the powers of the Wartime Prices Board to curtail non-essential industry and thus release men for war industry have been increased and clarified. This means a

new drive in this extremely difficult branch of the manpower administration. For the rest, we may be assured that full and immediate consideration is being given to the much-discussed memorandum given by Mr. Little on the eve of his resignation, and that anything of genuine value in it will be adopted. The solution of the manpower question is not a matter of the moment but of the present age crisis. It is not a question of dispute between two men. It is a part of the pattern of the whole allied effort.

Navy Week

There was a time not so many years ago, when the Canadian Navy was almost a subject of jest. It was not that the Canadian seamen were not the equal of any but the navy was so small a Tom Thumb Fleet with a permanent force of 2,000 men and six destroyers. The three years of war have brought about a decided change and now for the first time in its history Canada has become a naval power, a worthy junior partner of the British navy and joint legatee in its traditions. There are now 50,000 men and over 500 ships in the naval branch of the service. There are no ships larger than a destroyer in the Canadian navy, but 1 destroyers, corvettes, min sweepers and sub-chasers have been doing a fine job in convoying men and materials of war on the high seas. They helped in the expedition to North Africa and to the Aleutians. They have no permanent address; they may be found practically anywhere. The men of the navy and merchant marine came from all parts of Canada, from prairies as well as from Eastern and Western towns and villages and Canadians have every confidence in their brave men of the sea, who seem to have something of the brooding, sombre silence of the ocean in their eyes, and plenty of guts in their alimentary canals.

With the approach of Christmas, the Canadian people have been pleased to learn that a special Christmas parcel is being sent to each Canadian prisoner of war in enemy hands. The British and Australians are also sending parcels to their men. The International Red Cross have helped to arrange the delivery of the gifts. At the Yuletide season the thoughts of all Canadians will be with those who through the fortunes of battle are temporarily in enemy hands and in those thoughts will be the hope that it will not be long before they are released by the victory of the United Nations.

AIR FORCE NOTES

R. C. A. F. Women's Division

For the first time in the history of the Royal Canadian Air Force, a precision squadron of members of the Women's Division have toured the Dominion. During the past week the squadron, who have completed basic training at No. 7 "M" Depot, Rockliffe, Ontario, have exhibited precision drill at a number of centres in No. 4 Training Command, on each occasion their amazing display has drawn the high-

est comment from air-force officials and from the press. After witnessing the display, an officer who is a drill instructor, remarked, "I had no idea that women could master drill so thoroughly and present it so smartly." After a few preliminary orders, the girls, who hail from all parts of Canada, went through 139 movements of drill without a word of command and without the slightest suggestion of a hitch.

During the demonstrations Flight Sergeant F. C. Lawrence, a Kamloops B. C. girl, took charge. A diminutive miss, her audiences have wondered how she could possibly sound so much like an army sergeant-major. With her deep-voiced commands, she has been one of the big hits of the show. At the conclusion of the tour these girls will disband and commence trade training, which when completed, will enable them to release men for more

active services. Another group of girls will then be assembled to form the next Women's Division precision squadron.

Members of the armed forces and civilians have alike been thrilled by the girls' precise drill, and the fact that there is a place in the Royal Canadian Air Force for keen young women is emphatically pronounced.

Royal Canadian Air Force recruiting officials announce that the age limit for air-gunners has been raised from 32 to 38 years. Age limits for pilots, navigators, bombers and wireless operators are as before, 17 to 32.

Officials believe that this new ruling will find favor with men who are anxious to become members of the aircrew, but who are over age for other branches of aircrew. The announcement added that some very high-qualified applicants will be considered

GET 1/3 MORE LIGHT

For the price of a bit of soap!

ACTUAL tests have proved that dust, dirt, insects and grime accumulating on lamps, shades and reflectors, will often reduce the light from your lamps by 25% to 50%. All these light-stealing accumulations can be removed easily and quickly with warm water and a bit of soap.

Put the light you are now losing, yet paying for, back on the job making seeing easier, making your home brighter, making reading, studying and housework easier and quicker.

It won't add a single cent to your electricity bill, but it will add much to the pleasure of living and the enjoyment of your home.

Keep your eyes in working order. Provide them with adequate light for easy effortless seeing.....

**CALGARY POWER COMPANY**

• SERVING ALBERTA •

Local Manager, E. EASTON, Rockyford

Follow This**5-Point Plan**
For More Light Without Paying More For It.

- 1 Remove all bulbs and wash them in plenty of warm water and soap. A wipe with a damp cloth is NOT enough.
- 2 Wash all reflectors and washable shades with warm water and soap. Here again, wiping with a damp cloth will not do a good job.
- 3 Make sure you have the proper sizes of bulbs in every fixture.
- 4 Rearrange your furniture or lamps so that the most used seats have the best light available.
- 5 Have a regular systematic cleaning schedule and follow it consistently. For maximum lighting efficiency all lamps, reflectors and shades should be cleaned at least once a month.

AID TO RUSSIA FUND

Campaign objective of the Canadian Aid to Russia fund will be \$1,000,000 it was announced by J. S. McLean, chairman of the campaign. Mr. McLean said there would be no personal canvass during the campaign, and that the organization had been licensed by the National War Services department to collect funds by general appeal and special events. He said the department had expressed the wish that all non-government activities in aid of Russia become associated with, and hereafter function through the Canadian Aid to Russia fund.

The money raised will be used to provide medical supplies and clothing urgently required by the Russian civilian population suffering from the shock of war.

For all air-crew trades up to 34.

WINTER COMES AND
THE WOLF IS AT
THE DOOR

THE MOST serious coal shortage on record is facing Alberta as a result of several factors, cities, towns and villages being placed in danger of not having sufficient fuel stocks to ensure comfort for the populace.

Drumheller district has given in the neighborhood of 1200 residents to the services, it being no exaggeration to state that more than half of this number were employed in the mines. Countless others have left for the larger cities to secure employment in war industries.

It was a short sighted policy that permitted this number of miners to leave a work on which depends so much. A selective service plan should undoubtedly have been working in the industry.

The powers-that-be have come to realize that the mining industry was not accorded the protection that such an essential occupation warranted.

Drastic measures will have to be enforced to guarantee that Western Canadians will not lack for fuel during the long winter months!

PREMIER ABERHART'S
GREETING TO THE
ALCAN BUILDERS

INVITED to send a message of greeting to those who participated in

the building of the Alcan highway, Premier Aberhart praised the project as one comparable with the greatest examples of human effort in history. Pointing out that from the earliest times the overland trail to the Yukon led from Edmonton, Mr. Aberhart said the new highway is a victory road that leads from the arsenals of the Americas to the battlefields of the Orient. "To the men who toiled and sweated at the manifold tasks along the Alcan Highway, I would say that their efforts exemplify in practical manner the struggle which Christian civilization wages today. We go forth into the unknown, armed with determination and knowledge of what is right, and we face the difficulties of the trail in the certain knowledge that eventually we, or those who follow, will win through," said the Premier. His message was distributed to all U. S. troops who participated.

THE WAR FRONTS

THE change in the war situation in the past six months is gratifying beyond the hopes of the most sanguine.

What a change in the Russian situation since this time a year ago.

In Africa General Anderson and General Eisenhower are crowding in on Rommel's army in such a way as to make daily action of keenest importance.

The scuttling of the French Fleet

in Toulon Harbor will go down in history as a tribute to the loyalty of the men, who preferred death and the loss of their ships, rather than have themselves or their ships fall into the hands of the traitorous Hitler. In one sense the scuttling of the ships with the loss of their officers and crew is a tragedy, in another sense it is an epic in action.

This is not the spirit of a crushed people.

ROCKYFORD

— By K. M. G. —

The Rockyford Curlers organized recently for the winter season. Mr. R. L. Stone was appointed President and Mr. S. Roppel, Vice President, with Mr. Williams as Secretary Treasurer. The ice is now being made and the curlers are waiting anxiously for their first game.

The regular meeting of the United Church Ladies Aid was held at the Church parlors on Thursday Nov. 26 with Mrs. McLuhan conducting the business. It was decided to make the next meeting which is the annual election of officers, into a social event and the entertainment being supplied by the committee. Lunch for the day was supplied by Mrs. Ellison and Mrs. Helmecker with Mrs. Durrant assisting in serving.

Private Robert Stone of R. C. A. F. has just recently successfully passed his tests for his particular line, and is now at home for a week's leave.

We are glad to see Mrs. Raymond Bragg home again after her recent sojourn in the General Hospital. Her Mother Mrs. Pat Colbert of Camrose came with her and hopes to stay until after the Christmas holidays.

Mrs. Mary McLean of Nanton, formerly of Rockyford, returned home on Saturday Nov. 28, after spending four weeks at the home of Mrs. Pomroy and renewing acquaintances in the district. Many teas were given in her honor during her stay.

Mrs. Falconer has had her sister Miss Winnie Knuckleebee visiting her for a few weeks. Miss Knuckleebee returns to the States soon where she has been nursing for some time.

KITCHEN KINKS

Before using a new broom, soak it half an hour in cold water. This will make the wood around the bristles swell up and keep the bristles in place. Hang up the broom to dry before using it.

If some yolk gets into the white when you're breaking an egg, take a piece of shell and lightly touch the yolks with it. The yolk will adhere and can be removed easily.

The leather seats of chairs may be brightened by rubbing them with a good furniture polish and a woolen cloth and polishing with a dry cloth.

To darken minor scratches on mahogany, maple or walnut furniture, rub them with butter applied on a clean cloth. Then polish them with another soft clean cloth.

When cream will not whip, add the white of an egg to it. Chill the egg and cream thoroughly, then try again and it will whip easily.

If your leather handbag looks a little

CAFETERIA ON WHEELS

Seven thousand men can be seated, fed and on their way again in 30 minutes at the huge new mess hall in the depot of military district No. 2 at Toronto. A cafeteria on wheels; it is believed to be the largest eating place of its kind in the empire. The tables are set up in the centre of the building, around the kitchen, and the food is wheeled to the men on glorified tea wagons.

FOUR CENTURIES AGO

If you think blood transfusions are modern, says Neal O'Hara, be informed that back in 1492 when Pope Innocent VIII was dying, he was given transfusions from three youthful volunteers. They were unsuccessful, however, quite possibly because in those days blood wasn't typed or the method of infusion was too crude. But the ancient Roman physician still had the right idea.

TORONTO WOMEN DEMAND BUTTER

Toronto, Dec. 2—Faced with a deputation today of more than 30 women demanding "immediate action to relieve Toronto's lack of butter," Board of Control decided to wire Prime Minister Mackenzie King urging action to relieve the situation.

Spokesman for the deputation, Mrs. Elizabeth Brown of the Housewives' Association, charged there was no shortage because "there is some 50,000 000 pounds of butter in storage being kept for higher prices in the spring."

Mrs. Brown said women of the city were becoming angry and she "would not be surprised if they took to storming the packing houses" to get butter. City hospitals reported unless supplies are obtained immediately their patients would have to go without butter.

Reconstruction Conference

Called by Hon. W. Aberhart VICTORY SLOGAN IS KEYNOTE

"Prepare for Victory — not later — but now."

This is to be the keynote of a gigantic four day conference on problems of Post-War Reconstruction, Hon. William Aberhart, Premier of Alberta, announced today. Following preliminary meetings to be held in Calgary on December 14th and 15th, the main conference opens at the McDougall

Church in Edmonton on Tuesday, December 15th, and continues daily until Friday, December 18th.

In announcing the conference Premier Aberhart stated that its purpose is "to discuss problems of postwar reconstruction." "It is the first step," he added, "in answering the greatest challenge in Canada's History."

"Remember the slogan— Prepare for Victory — not later — but now! We need immediate, and effective action. Let's get busy."

SALE AND REDEMPTION OF IMPOUNDED ANIMALS

Notice is hereby given under Section 4 of The Domestic Animals Act (Municipalities) that one bay gelding branded (S E) on left shoulder, weight 1500 lbs., 2 white hind legs with star in forehead; one light bay gelding, no visible brand, weight 1400 lbs., white star on forehead, white mark on left hind fetlock, was impounded in the pound kept by Jas. P. Shepherd, located on the N. E. 9-26-26-4, on the 4th day of November 1942, and that the said animal was sold on the 20th day of November 1942, to R. J. McKay of Keoma, Alta., and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

FRANK J. EWING,
Sec.-Treas. of the Municipality
of Keoma No. 249

Post Office—Irishana, Alberta,
Nov. 21st, 1942.

A Mexican prisoner was being questioned by the police.

"Can you read and write?" asked the officer.

"Can write but can't read," replied the prisoner.

Write your name on this," the officer commanded, handing over a pencil and paper.

The prisoner scrawled several huge hieroglyphics across the sheet and handed it back.

"What is that you wrote?" inquired the puzzled officer.

"No, sabe," said the Mexican. "Don't I tell you me no can read?"

Berta Vale — Serviceberry Women's Institute

A very interesting meeting was held at the home of Mrs. North on Thursday, November 26. There were 11 members and 1 visitor present.

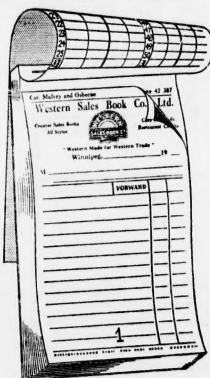

Final arrangements were completed for the bazaar, whist drive and dance to be held in Berta Vale School on Friday, December 4th.

Members decided to purchase four dozen white cups for use at their social evenings.

A good deal of merriment was created when Mrs. Morton acted as auctioneer for the handkerchief sale. Bidding was fast and furious and \$3.60 was added to the treasury.

A delicious tea was served at the close of the meeting.

PLEASE NOTE— Instead of holding the next meeting in Berta Vale school as scheduled, Mrs. Leonard Hilton has invited the W. I. to meet at her home on Thursday, December 10. As this is the annual meeting every member is requested to attend, and to contribute something towards the lunch.

Work of the London fire brigade photographic unit which operated during the blitz is to go on display so that Britons may see how their fire fighters carried on during air raids.

Evidence was given recently that the human heart has walls that act like a bullet-proof gasoline tank in self-sealing a wound made by a bullet.

Dr. K. W. Nashby
A. S. S. Agricultural Department
North-West Line Elevators Association

Pulling First Things First

When this Department was organized, nearly three years ago, we decided that besides providing farmers with various information and specific services, we would put all our weight behind what we considered the two most pressing agricultural problems. These were: (1) weeds and (2) soil erosion.

Only the other day, a new book entitled "Weed Control" reached our office. This book quotes a report, prepared in 1930 by the Agricultural Service Department of the United States Chamber of Commerce, in which estimates of losses to farmers due to various causes are given. Of 30 items of waste, soil erosion was given first place and weeds second. The following figures are losses in the United States are interesting:

1. Diseases of live-stock (not including deaths from eating poisonous plants) — \$ 250,000,000
2. Plant diseases (10 leading crops plus forest trees) — \$1,190,000,000
3. Insect pests of plants and animals — \$1,125,000,000
4. Weeds — \$3,000,000,000

Of course, erosion losses are far greater and, worse still, permanently injure or ruin the land. One of these days—we hope soon—we shall learn what sort of acreage policy or guidance the government will undertake. Farmers, elevator companies, butchers, bakers and candlestick makers all depend on the land. It is high time all realized that the land is being damaged. Summerfallowing aggravates erosion unless very carefully done, and no good grains do no good unless fed on the farm and the manure returned to the land.

This is not white-collar theory, but hard reality. What shall we do about it? In the next issue we shall offer a few suggestions.

REV. W. E. SIEBER

A VENTURE IN FRIENDSHIP BUILDING—

Much hope for the future establishment of permanent peace is found in the careful reading of the following News Report which appeared in a recent issue of an outstanding religious Journal. I quote;

"Children and youth of all churches are asked by the American Friends Service Committee to express their friendship for the 50,000 American children and youth of Japanese descent who are interned for the duration of the war in government relocation centres in the west. Each is asked to give one inexpensive gift for a child his own age, up to junior college age. Costing 25 to 50 cents, gifts should range from toy autos and small dolls to cosmetics, books, games and tools. No military toys are desired.

To insure that these gifts shall develop friendships, and be in the spirit of Christmas, inside each gift a card should be placed with name, address and age of the giver. Wrappings should be colourful. To the outside is to be tied, or pinned a removable tag stating what is inside, whether for boy or girl and of what age."

Nothing that I have seen in print recently has given me more genuine satisfaction. In no other way can the Christmas message be made real and understood by others, nor can any other spiritual foundations be laid upon which the future can build a "Palace of Permanent Peace." All other roads are merely a circular pathway always leading from amriticism to war on to peace, so-called, which is only another amriticism leading to another war.

To destroy the body of an enemy does not destroy the enmity that made him an enemy. It merely creates new enmities by creating in the hearts of his real friends new hatred, bitterness and resentment which are the spiritual components of enmity. This gesture of Good-Will surely will go far to establish understanding and make for peaceful and profitable relationship among the different nationalities.

Here are hands of friendship laden with Christmas cheer, reaching across the barb wire entanglements of the internment camps; what will they achieve? That they may be wounded because of the barb wire is quite conceivable for there have always been those who cry for the blood of the mediating redeemers. They cruelly pierce the peace-making Christ. But notwithstanding all this, they will surely help to smother the flame of resentment kindled by the internment of these American born descendants of Japanese parents. It is always the fires of resentment and the smarting sting of injustice, real or imaginary, that breaks forth into the flaming hell of conflict.

Our Great Master knew this. His teaching lays down the only great principle which the Christian can rightfully use to destroy enmity. It is by the pathway of turning an enemy into a friend; by the exercise of great and sincere Good-Will; the manifestation of a sincere, genuine, kindly helpful interest in his welfare before conflict breaks out. Only outstanding deeds of mercy and love can destroy enmity and breed good-will. This was the Master's way if turning an enemy into a friend. Conversely translated, that is the import of the Angelic Christmas Message - "Peace on Earth among men of good-will." It means going the second mile, or third mile, in loving helpfulness.

The Creator of "Boys Town" said: "There are no BAD boys, only boys

with BAD training." His remarkable success gives proof of the wisdom of that approach. After thirty years as a Christian minister I would say—There is no normal human heart that will not make a favourable response to a genuine bid for real friendship so long as it has reason to believe the approach to be made and motivated for unselfish purposes. It is the almost universal unchristian selfishness and self-seeking that has made other people and nations look for motives of selfishness and deceit in every approach of the past. Lack of trust and absence of faith in the Good-Will each of the other, as has been the case in the past, must always lead to the breakdown of friendships.

Unless we set about to build peace upon the foundation of kindly, mutual sympathy and helpfulness, searching for the redeeming and not for the condemning traits each in the other, it cannot be built at all. No man, nor nation will ever arrive at the gateway to the Palace of Permanent Peace by any other road but that marked out by our Prince of Peace, our Great Lord and Master of Life, even Jesus Christ.

NIGHTINGALE

By M. H.

Mrs. George Thurston entertained the Woman's Institute at her home on Nov. 20th. This was a special meeting and the articles for the bazaar were collected, also some Red Cross garments. Mrs. Harriman gave a report of her attendance of farm and home week at Olds last June. Sympathy was expressed for the Trimble family on account of the severe illness of Mr. Trimble. Plans for the bazaar were completed. A delicious tea was served by the hostess. The next meeting will be held Dec. 11 at the hall and all members are requested to be present as this will be the annual meeting.

Last Saturday evening a shower was organized honoring Mr. and Mrs. Frank Smith. Friends and relatives gathered at the Nightingale School and the Valley Garden Orchestra supplied the music for dancing. During an interval a mock wedding was staged that produced much merriment. Mrs. Plath acted as bride with William Joel the groom and Fred Hilton the person. Just before the supper was served Mr. Fred Hilton presented to the bride and groom a table laden with gifts expressing the good wishes of friends. Mr. and Mrs. Smith in turn thanked their friends and invited them to visit them in their new home. It was a very pleasant affair and will be one of the nicest memories.

The bazar and dance held under the auspices of the Woman's Institute at the hall last Friday was a decided success. The table of aprons, dresses, mittens and other sewn articles was well patronized. Mrs. Pete McLean had charge of the bran tub for younger children and the draws went on until all articles were gone. During the supper hour Maureen Mercer of Calgary was the winner of the pretty quilt raffled. Mr. Kinney and Mr. and Mrs. L. Edgar furnished music for the dance which lasted until an early hour. The members of the Institute deeply appreciate the patronage of all who were present.

Mr. and Mrs. George Thurston were Calgary visitors last week.

Albert Kimmitt returned Friday after a week's visit with his sister and brother-in-law Mr. and Mrs. H. Hansen at Red Deer.

Congratulations go to Mr. and Mrs.

Eddie Radon on the birth of their son, Wayne Leslie.

Mr. and Mrs. Frank Smith of Turner Valley were visitors over the week-end with Mrs. Smith's parents, Mr. and Mrs. William Joel.

Doris Hilton was taken to Calgary where she parted company with her appendix. She is making a splendid recovery and will soon be home.

Pte. Joe Shue serving at Calgary barracks was a week-end visitor with his sister Mrs. H. Walls.

A STATEMENT about BUTTER

In spite of the fact that in some Canadian cities butter supplies recently have not been sufficient to meet the greatly increased demands, the situation does not constitute an emergency; nor is it as serious as some people seem to think. There are two main causes for these temporary and local shortages:

For the past year we have been consistently using 10% to 15% more butter than in normal times—with consequent disturbance to the distribution of our butter supplies.

Many people have been buying more butter than they currently need.

The limited nature of the present shortage is shown by the fact that if every home would reduce its consumption of butter by only one ounce per person per week (for the average home this means a quarter of a pound a week)—or if we reduced our national consumption to the peacetime rate—the shortage would soon disappear.

There is no Reason for Panic Buying

It is unpatriotic and unnecessary for housewives to rush out to beat their neighbours to the nearest grocery store. Butter will not be rationed to meet the present situation. Butter production is actually above normal for this time of year. The Board itself is taking special action which it is believed will speedily restore normal supplies in retail stores.

These supplies will however be adequate for normal consumption, if housewives in all parts of Canada co-operate.

You can help in these ways:

Scrupulously avoid waste and extravagance. Waste is wrong at all times. In time of war it is sabotage.

Reduce present consumption of butter by at least one ounce per person per week—for the average home this means a quarter of a pound a week.)

Do not buy more than is needed for immediate use.

HOW TO SAVE BUTTER

AT MEAL-TIME

1. Use butter only for spreading on bread.
2. Never use butter just out of the refrigerator. Wait until it is soft enough to spread easily.
3. Add a small amount of milk when creaming butter for sandwiches.

IN COOKING

1. Do not use butter in baking and cooking, when lard, shortening or meat dripping can be used.
2. Use level measurements of butter. . . . Guesswork means waste!
3. When adding cheese to a cream or white sauce, use only half amount of butter stated in recipe.
4. Use paper wrappings from butter to grease baking dishes.
5. Do not use butter for re-warming vegetables.
6. Serve meat gravy to avoid the use of extra butter on potatoes.
7. When adding butter to vegetable dishes, add it sparingly. Do not melt it and then pour on.

THE WARTIME PRICES AND TRADE BOARD

A. M. A. OFFICES GIVE DATA ON PROVINCE

Alberta is already proving of interest to visitors who are making plans for after the war.

Offices of the Alberta Motor Association report that numerous inquiries have been received from U. S. army and engineer members, besides members of U. S. civilian bodies, seeking full data concerning the province. Many sought data on the available lands, roads, hunting and fishing and other sports, with the purpose of set-

ting here or along the Alaska highway.

Thus, it is evident that the foundations are being laid now for an after-the-war rush to Alberta through which traffic will move to reach the new U. S. highway to Alaska that was opened November 20.

The provincial governments' publicity department has stated that since June, nearly 1,000 inquiries have been received from all parts of the U. S. for general data, booklets, maps and other material concerning Alberta.

Local News Items

The final in the series of Sorosis Bridge Parties was held last week at the home of Mrs. Nichol. Winners for the series were, high Mrs. Hansen, average, Mrs. Harry Freeman, with Mrs. T. Glendinning holding the consolation.

CONGRATULATIONS TO ANTLER STUDENT—

Miss Helen Klossen of the Antler School District received the Governor General's medal for highest standing in Grade IX within the bounds of the Wheatland School Division.

Towns and country schools were competing for this.

SOROSIS CARD PARTY

The Sorosis Society is arranging a Bridge Part to be held Thursday, December 10th in the Memorial Hall. Funds are to provide cigarettes for the boys overseas. Admission 25c. Time 8.15 sharp. Everybody welcome. Make up your table now and a help a worthy cause.

Strathmore girls coming home from Calgary for the week-end included Miss Gladys Fessenden and Miss Dot McNeill.

Mr. and Mrs. George Quirin have as their guest for a few days the former's sister Mrs. Rosecranz of Calgary.

The draw on the cake recently held by the W. A. of St. Michael's netted \$37 not \$14 as previously announced.

Returning home Tuesday from a quite lengthy stay in Calgary Hospitals were our local Barber, J. Crawford and Percy Wright. Mr. Crawford looks a bit wan after his serious seige of pneumonia. Percy Wright hopes with care to regain the full use of his knee. This is the result of an injury in the last war.

Mr. Tench is leaving this week for Vulcan where he will be located for the next two months with the F. I. C.

Born to Mr. and Mrs. Eri Dolice (nee Edith Hirtle) in Moscow, Idaho a baby girl. Mrs. Hirtle is at present with her daughter in Moscow.

Practices are proceeding daily for the Christmas Concert to be put on by the Strathmore School December 22, in the Memorial Hall.

Mrs. Woodliffe and Joyce left on Thursday to spend the week-end in Lethbridge with Sgt. Woodliffe who is now stationed there.

The largest sea-going vessel ever launched from a Great Lakes shipyard slid down the ways at Duuth, Minn. The ship, the tanker San Joaquin, is the first of seven of its kind to be built there.

Wedding Announcement

FORETELLING A CHRISTMAS WEDDING. Mr. and Mrs. J. R. Clarke announce the engagement of their only daughter, Dorothy Evelyn, to Mr. Norman Everton Laycraft of Ottawa, son of Mr. and Mrs. W. A. Laycraft of Strathmore. Miss Clarke graduated from the University of Alberta with the degree Bachelor of Arts, and Mr. Laycraft graduated from the same university, obtaining the degree Bachelor of Science.

The wedding will take place at 7 p.m. on December 26 at Wesley United Church.

ST. MICHAEL'S W. A. TEA

An exceptionally successful Tea was held Saturday in the King Edward Sample Room when the very gratifying sum of \$105 was added to the Treasury.

Individual chicken salads made an appetizing innovation.

Mrs. Hoard and Mrs. Hyde presided at the Sewing table, Mrs. Downey and Mrs. E. Shuman dispensed choice home cooked foods, while Mrs. Ridley, Mrs. Freeman, Mrs. Izard, Mrs. Hartell and Mrs. May were in charge of the Tea Room.

Misses Edna and Phyllis Hartell, Gwen Tew and Ellen Bennett made faithful servitors. Mrs. Cecil Lambert sold Christmas cards. Mrs. Smith was the lucky winner of the attractive doll.

SCHOOL NOTES

In the past six weeks the children of the Strathmore School have bought \$63.25 of War Savings Stamps.

Last week was Navy Week and the pupils donated \$18.96 towards comforts at Christmas for the men of the Canadian Navy.

The Students Council of the High School is sponsoring a Bowling Tournament, the proceeds from which will be used to help send parcels to former members of the student body who are now overseas.

The Christmas Concert will be held 22nd December.

CHRISTIAN SCIENCE

"God the Only Cause and Creator" is the subject of the Lesson-Sermon at all Christian Science Churches on Sunday. The Golden Text is Psalms 86:9, 10. One of the Scriptural citations is "And the times of this ignorance God winked at; but now commandeth all men everywhere to repent" (Acts 17:30). One of the correlative passages from "Science and Health with the Key to the Scriptures" by Mary Baker Eddy, is "Contentment with the past and the cold conventionalities of materialism are crumbling away. Ignorance of God is no longer the stepping-stone to faith. The only guarantee of obedience is a right apprehension of Him whom to know aright is Life eternal" (p. Prof. VIII).

TOWN COUNCIL

A meeting of the Town Council was held on Tuesday December 1st. Minutes of the last meeting were read and adopted. Mr. J. A. Tench attended the meeting and stated that he had been requested to ask approval for the proposed Russian Relief Campaign and that Mr. Coldwell had consented to lend his Office on Main Street as headquarters. Mayor Gannon had this matter on his list previously and the council were unanimous in giving approval on the Motion of Councillor Quirin.

The Financial Statement for October was examined and passed.

Mr. Jack Bennett was appointed permanently as handy man and the Secretary was instructed to prepare a list of his duties before next meeting.

Councillor Keeling was appointed as Deputy Mayor until the end of present term in February.

Tickets for the Skating Rink were to be the same as last year: High School \$1.00, Public School 50c and Adults \$2.00.

The Secretary was instructed that the Educational Tax of \$4.00 be collected before December 15 and that amount of those in arrears be given to the Town Solicitor to collect.

The prevention of accidents at the lake was discussed and Mayor Gannon proposed to give instructions to the handy man in this regard.

Application for support was received from the Canadian National Institute for the Blind and on Motion of Councillor the sum of \$12.50 was granted.

A number of accounts were passed for payment. The meeting then adjourned.

CARSELAND

Melvin Christensen has recently enlisted in the Army.

Mr. and Mrs. Walter Wilde of Okotoks attended the Old Time dance. They visited the Martin Christensen home before returning home.

Mrs. Elmer Lausen and daughter of Brooks visited with Mrs. John Christensen recently.

Mrs. Jim Groves has gone to Calgary to undergo an operation.

The Old Time Dance was well attended. Quite a neat profit was realized by the Hall Board.

Milton Cote R. C. A. F. has returned to Lethbridge. During his furlough he visited his sister and brother-in-law Mr. and Mrs. Miller of Carleton, also his brother Estel at the Sanitorium.

Several Carceland families journeyed to Dalemend to the Oyster supper which was enjoyed by all.

Mrs. Gillespie's parents of Calgary have been visiting her.

Mr. and Mrs. Mutch spent Sunday in Calgary.

Mr. McKinnon and Mr. Addison took two car loads to Strathmore on Monday night to the Strathmore Home and School Association Meeting. A lively program and discussion were enjoyed by all. A delicious lunch was served at the home of Mrs. Hunt after the meeting.

Murray Hebbes is the new assistant in the Post Office.

An all-time single day's record was set at Edmonton packing plants when 250 carloads with 21,000 head of animals valued at \$500,000 were received.
